EXPERIENCE

Chubb Insurance - Westchester E&S Casualty Jun-Jul 2026
Middle Market Casualty Underwriting Intern

- Observed underwriter workflows and identified repetitive research, referral, and quality-assurance tasks suited for responsible AI support.
- Designed, tested against historical cases, documented, and handed off four human-in-the-loop AI workflows; disclosed model limitations and required human verification.
- Gathered underwriter feedback, adapted research workflows for different working styles, and created training and documentation to support responsible adoption.

Primerica May-Jul 2025
Data Analyst Intern

- Queried training and practice-exam data with SQL; built Excel models, PivotTables, conditional formatting, and dashboards for senior leaders.
- Identified suspiciously rapid completion and pass-rate patterns concentrated under a small number of regional leaders, directing management follow-up.

University of Georgia Office of Sustainability Aug 2024-Present
Circularity & Zero Waste Intern | Current: Aug 2025-Present | Summer Outreach: May-Jul 2025 | Bike Programs: Aug 2024-May 2025

- Lead stakeholder interviews and departmental workshops supporting UGA's long-term zero-waste planning and Stage 1-2 reporting.
- Cleaned approximately 400 transportation-survey responses and built a Google My Maps visualization of commuter origins and campus patterns.
- Advanced through three consecutive roles spanning bike programs, new-student outreach, and campus-wide circularity planning.

University of Georgia Ramsey Student Center Jun 2025-Present
Group Fitness Program Assistant & Cycle Instructor | Program Assistant since Aug 2026

- Lead the instructor evaluation program, facilitating assessments and feedback to support instructor development and consistent class quality.
- Mentor incoming instructors, coordinate last-minute coverage, and analyze attendance patterns that informed a successful midterm free-access initiative.
- Teach high-energy indoor cycling classes and step in when needed to maintain program continuity and participant experience.

PROJECTS

Colby vs. the Machines Sep 2026-Present
Creator & Experiment Designer | Python | SQLite | OpenAI API | Robinhood MCP | Alpaca

- Launched a live market experiment comparing my Robinhood portfolio, an autonomous AI trader using a dedicated real-money account, and a contribution-matched simulated VTI benchmark.
- Designed the agent's constitution, evidence pipeline, and structured decision schema; integrated the OpenAI API, Robinhood MCP, and Alpaca with Python validation, execution guardrails, and an auditable SQLite ledger.

GRADE Cycle 2026-Present
Creator & Product Strategist | Web Audio | Product requirements | AI-assisted development

- Conceived and directed a working browser prototype that analyzes uploaded audio, proposes song sections, supports instructor editing, builds playlists, and runs class playback.
- Own product vision, requirements, testing, and bug prioritization; selected as the foundation for a five-person Agentic AI course project.

LEADERSHIP

Bike UGA Oct 2024-Present
Founder & President | Grassroots growth | Operations | Partnerships | Succession planning

- Built a roughly 300-person campus cycling community with approximately 30 active participants and organized 50+ rides through grassroots outreach.
- Partnered with UGA Sustainability to reclaim abandoned bicycles and operate a 15-bike rental program serving students, including international exchange students.
- Built a three-officer leadership team and lead succession to a new president and vice president ahead of graduation.
